

## FINGER PROTECTION DEVICE FP200

## FINGER PROTECTION DEVICE FP400

SAA finish with black fabric

Satin stainless steel finish with bordeaux/black fabric

### FINGER PROTECTION DEVICE FP200

#### Roller system finger protection

The FP200 can be fitted to most single and double action doors and is particularly suitable for automatic doors.

The FP200 provides effective protection against fingers being trapped on the hinge side of doors.

The strong fabric material, kept under constant tension covers the gap between the door and frame automatically when the door is opened.

The FP200 is available in a choice of finishes with black fabric. Other finishes are available to order - please enquire.

Additional hinge guard profiles are available to order.

#### TECHNICAL DATA:

Roller system specifications:

Maximum length: 1925mm (standard size)

Minimum length: 290mm

Housing Finishes:

- Silver Anodised
- Dark Bronze Anodised
- White (RAL 9016)

Fabric Colour:

- Black

### FINGER PROTECTION DEVICE FP400

#### Roller system finger protection

The FP400 can be fitted to most single and double action doors and is particularly suitable for automatic doors.

The FP400 provides effective protection against fingers being trapped on the hinge side of doors.

The strong fabric material, kept under constant tension covers the gap between door and the frame automatically when the door is opened. The housing is designed to conceal screws when in the closed position.

The FP400 is available with additional options for the colour of fabric and individual logos if required - please enquire.
